1. Overview of strategic direction

“Knowledge has to be improved, challenged, and increased constantly, or it vanishes”

[Peter F. Drucker](#), Management Consultant and Business Strategist

In Trajkovski & Partners Consulting we believe in the philosophy that the organizations are only as good as the people that work in them. On the other hand for people to be “good”, skillful, productive and desired by the organization they need to have appropriate knowledge and experience in order to bring additional value.

That is why one of the areas of operations of Trajkovski & Partners Consulting is T&P Management Academy which focuses on increasing the knowledge and effectiveness of operational capacities of people.

Our mission as a Management Academy is to provide high-quality capacity development opportunities for the organizations which see their growth through the professional development of their people.

2. T&P’s view and approach

“Learning is an active process. We learn by doing. Only knowledge that is used sticks in your mind”

[Dale Carnegie](#), Self Development Author and Trainer

Our Management Academy is devoted to providing tailor made professional development opportunities to enable organizations to remain competitive in the today’s dynamic market. We also provide custom trainings that are relevant for today environment that changes rapidly together with the technological growth.

Our training programs include more practical approach towards the corresponding topics, with lots of practical examples and simulation, transfer of know-how and experiences, tools and techniques for better absorption of the information, awareness raising for easier adoption to the needed or recommended changes etc.

We design our programs following the recommendations from ISO 10015 standard, which analyses the organizational performance gaps and finds solutions through improvement of capabilities of employees who are directly involved in realization of the processes.

T&P Management Academy recognizes four types of trainings:

- **Off-the-shelf soft skills training** – generic training with pre-defined curriculum geared toward managers and professionals from various fields. Topics include: presentation skills, team skills, negotiation, communication skills, partnering skills, etc.
- **Highly specialized managerial and technical training** – high-end specialized trainings in the areas of IT Governance, Information Security, IT Service Management, etc.
- **Tailor made training** - specific training requested by a client or initiated as result of the training needs analysis of the market (training aligned and adjusted to specific client need)
- **In-company project training** - training as part of consulting project (trainings on specific project related topics, on the job trainings, etc.)

3. Our competences and references

“There is no substitute for knowledge. To this day, I read three newspapers a day. It is impossible to read a paper without being exposed to ideas. And ideas.. more than money.. are the real currency for success”
